25X1A9a [REDACTED] would like to see you to talk about answer to attached memo from
due today, on increased intelligence effort on Communist China.

25X1A9a [REDACTED] 25X1A9a states strong diffier 25X1A9a developed between State (Evans) and

your level to straighten out; [REDACTED] 25X1A9a is anxious decision before Tuesday's
meeting IWG; he or [REDACTED] 25X1A9a may want to see you early on this.

State (Nordbeck) suggested [REDACTED] we might like to lend them a man to help them settle US claims in Yugoslavia, on ground our man would have considerable freedom to roam around and do bits for us while working for State. This matter broached at morning staff 11 July, and staff directed to have opinions for you at first meeting.

██████████ attended meeting with IC to concur on draft regulation External research. TSS raised questions and therefore exception made to effect all units reporting to DDP could handle their own external research on technical and scientific subjects. Decided there would be another meeting to consider proposal from State. ERS on what support they wanted from CIA. ██████████ was to have stood this formation, but became confused on week; he reports he had talks with ██████████ and is scheduled to see Kirkpatrick (State) on 14 July. ██████████

MP-34, DDI on/ Becker called [REDACTED] 9 Jul and directed the following comment on CIA/RR MP 24 be passed on to you: 1) He thinks it an excellent paper; 2) he wonders whether the writers, in their form of presentation arent thinking too much of it as purely a working paper; particularly, he believes the stated conclusions would be more easily grasped if points were set out separately, possibly each in an individual paragraph, as would be done in a brief, rather than being run together in one single-spaced paragraph.

Coordination

Briefing Congressman Battle - Becker directed [redacted] to set up [redacted] handled, after consulting [redacted] [redacted] Held
[redacted] 11 July attended by Battle and Bullock from his committee, [redacted] 25X1A9a
[redacted] (beginning only), [redacted] and others from [redacted]
shop. VIP passes secured from I&S, to avoid identifying [redacted] passing
visitors. In papers awaiting your reading are: Pforzheimer's memo to DCI re-
commending, text of note for DCI diary (not reported in our diary), [redacted] 25X1A9a
memo on Pforzheimer's report on [redacted] call on Bullock's flattering message,
[redacted] also thinks good job done, but notes we should be too enthusiastic
on Battle's grasp of problem.

WFM visit Will be in Washington ^{25X1X7} through Fri 16-18 at CIA 18 Jul

EIC-R1 Version to be released [redacted] is being reproduced; should be out in a week or ten days, and then will be passed on. Partridge for distribution. We have received a series of [redacted] on this revision; all have excepted our proposals with curious exception of the one included in your papers with note from [redacted] relative to coverage.

EIC Annual Report has been sent out for comments; summary memo for IAC still in preparation

25X1A9a

11 Geography - [redacted] concurred for ORR in proposal by OCD drafted by Guthe for support of National Academy Science in return for past and expected favors. In your papers.

Administration and sundry

12 DCI Staff meeting 7 July was called by DCI, he said, to hear gripes from anyone; no one had any. DCI mentioned Congress has appropriated 750M to air-condition CIA temporary buildings. White is in charge; when queried as to time, said thirty days after machines (apparently individual-room units planned) are available, but didn't know anything about availability. DCI obviously not too sanguine about this summer.

13 DCI memo on source protection - Memo, in your papers, says no one shall reveal CIA source without permission DCI, DDCI, DDI (that order). Seems to [redacted] to spring pretty obviously from Lattimore case (on which the general made a pair of pretty pointed remarks at his dinner for Douglass), but, before putting out implementing notice for our people as directed, it might be well to be sure from Becker this refers only to naming individuals and not citing documentary sources. Literally it would of course rescind memo we have all just concurred in on sharing knowledge of sources to protect from paper mills.

14 Lecture at 7th Agency orientation courses was given by [redacted] as your substitute on 10 July on Intelligence Research Program

15 Request for payment to attend convention from [redacted], D/S, held for your ruling because of precedents; in your papers

16 T/O conference between [redacted] of Classification and [redacted] on 11 July. They suggest, in interests of quick action, they now (a) survey only new positions; (b) put upgr[redacted] requests back to original grade (c) include all others. Once T/O is approved they will then survey all requests for upgrading in order we ask. [redacted] not certain we all see eye-to-eye on what is upgraded and what new; e.g., they think DAD-C, DAD-G and new division chiefs in G area upgraded, DAD-R and four consultants as new. They were warned some apparent ungradings due to formation new branches and sections. They will check within divisions first, then see you about new and/or ungraded division chiefs DAD-R and advisors.

17 Intra-RR space arrangements - [redacted] came to [redacted] stating his division probably could all go behind barrier in two weeks, and that he would rather have a girl or two [redacted] elsewhere than move his division again in a month. Eliminating August or September move (involving Guthe also) seemed sound. Therefore [redacted] arranged Guthe to go downstairs, two north rooms on 2100 corridor to be set up as [redacted] both intra-barrier and extra-barrier conference, and DAD-R to have center and AD's room of present three-room AD unit plus present conference room, as planned for final completion of [redacted] still doubtful.

18 [redacted] leave [redacted] inquired as to your probable wish to take up immediately on return his assignment of consultants and [redacted] hush-hush group. To [redacted] neither seemed as urgent as enough other matters to keep you busy and therefore OK'd to leave through Wednesday. [redacted] made clear no urgency personal affairs and perfectly willing stay around if [redacted] thought he might be wanted for either report. Says he has gone into consultant matter pretty extensively.
